Mobile Business Processes

Vodafone Time & Expense

The enterprise-wide mobile solution for remotely capturing and reporting employee time and expenses.

Time in any business is a valuable commodity. It must be tracked carefully to ensure all chargeable work is billed to clients correctly. Expenses claims tracking is also critical to ensure accurate reporting and faster employee reimbursement of incurred business expenses.

Vodafone Time and Expense is a pre-configured application package developed by a Vodafone Certified Partner providing real-time capture of working times and incidental expenses via a mobile device. Time and expense details can be quickly, easily and accurately recorded by employees the moment they're incurred. Consultants and sales representatives can maintain and submit records using a Blackberry or other mobile device throughout their working day, eliminating paperwork, inaccuracies and delays.

Make the most of now

Business Benefits

Save time

Save up to 30 minutes per consultant per day as administration filing activity and expense reports become a simple task that can be done instantly.

Optimise profitability

Bill clients for all chargeable work by logging employee time accurately. Eliminate losses due to poor time-reporting. Pinpoint over-runs or excess working hours.

Improve cashflow

Issue invoices and expense claims as work is delivered. Eliminate invoicing delays due to late employee time sheets and expense claims. Automate legend detail for customer billing.

Improve Time to Cash

Real time billing on finishing consulting/customer service calls helps to improve the accuracy of transactions, provides transparency on operations and improves time to cash.

Safeguard accuracy

Produce detailed minute-by-minute, day-by-day justifications for any project on demand. Reduce transcription errors. Build client trust and reduce the risk of billing disputes.

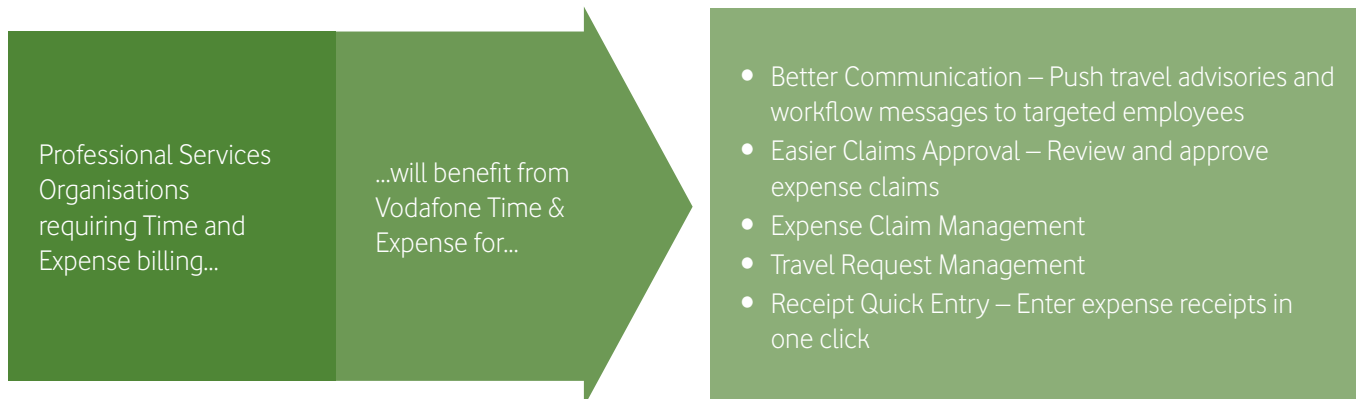

Improve estimation

Review time, cost and timelines for past projects to better estimate future quotations.

Ensure compliance to company's policies

Analyse employee expenses claims in detail against an activity or project.

Examples of industries and applications

Vodafone Certified Partner
